Approved For Release 2006/05/24 : CIA-RDP80-00810A003800380003-6

25X1 1. [redacted] Comment. The December repair quota was fulfilled 98 percent, while the November quota was fulfilled 85 percent. The present report indicates, however, that in the L3 and L4 categories, which cover heavy damages, the repair work performed lagged considerably behind the target fixed.

25X1 2. [redacted] Comment. According to these data, the 1953 repair quota was fulfilled 86 percent. In the categories covering heavy damages, i.e. L3, L4, L4G, and E1, the gap between actual and scheduled repair performance was much larger. In 1952, the fixed repair quota was fulfilled 92 percent.
